

## CONTENTS OF VOLUME 66

Beach, L.R. and T.R. Mitchell, Image Theory: principles, goals, and plans in decision making	201
Beach, L.R. and T.R. Mitchell, More on Image Theory. <i>A reply to</i> Montgomery and Vlek	231
Boer, J.P.A., <i>see</i> W.A. Wagenaar	291
Bruce, R., <i>see</i> M. Kinsbourne	139
Bruyer, R. and M.C. Coget, Features of laterally displayed faces: saliency or top-down processing?	103
Busemeyer, J.R. and I.J. Myung, Resource allocation decision making in an uncertain environment	1
Carnahan, H., <i>see</i> T.D. Lee	83
Carroll, M., <i>see</i> P. Freebody	115
Coget, M.C., <i>see</i> R. Bruyer	103
Elliott, D., <i>see</i> T.D. Lee	83
Freebody, P. and M. Carroll, Contrasting aware and unaware memory for written discourse	115
Garcia-Colera, A. and A. Semjen, The organization of rapid movement sequences as a function of sequence length	237
Haagh, S.A.V.M., W.A.C. Spijkers, B. van den Boogaart and A. van Boxtel, Fractioned reaction time as a function of response force	21
Heister, G. and P. Schroeder-Heister, Evidence for stimulus-response compatibility effects in a divided visual field study of cerebral lateralization	127
Helstrup, T., One, two, or three memories? A problem-solving approach to memory for performed acts	37
Jennings, J.R., <i>see</i> M.W. van der Molen	251
Johnson, R.D., Making judgments when information is missing: inferences, biases, and framing effects	69
Johnson, T.L., <i>see</i> K.L. Shapiro	157
Kinsbourne, M. and R. Bruce, Shift in visual laterality within blocks of trials	139
Lee, T.D., D. Elliott and H. Carnahan, The preparation of actions and parameters of action: a fixed or variable process?	83
Mitchell, T.R., <i>see</i> L.R. Beach	201
Mitchell, T.R., <i>see</i> L.R. Beach	231

Montgomery, H., Image Theory and Dominance Search Theory: how is decision making actually done? <i>A comment on 'Image Theory: principles, goals, and plans in decision making' by Beach and Mitchell</i>	221
Myung, I.J., <i>see</i> J.R. Busemeyer	1
Nieuwboer, R.T., <i>see</i> M.W. van der Molen	251
Orlebeke, J.F., <i>see</i> M.W. van der Molen	251
Schroeder-Heister, P., <i>see</i> G. Heister	127
Semjen, A., <i>see</i> A. Garcia-Colera	237
Shapiro, K.L. and T.L. Johnson, Effects of arousal on attention to central and peripheral visual stimuli	157
Somsen, R.J.M., <i>see</i> M.W. van der Molen	251
Spijkers, W.A.C., <i>see</i> S.A.V.M. Haag	21
Steyvers, F.J.J.M., The influence of sleep deprivation and knowledge of results on perceptual encoding	173
Thompson, L.A., Central resource involvement during the visual search for single features and conjunctions of features	189
Van Boxtel, A., <i>see</i> S.A.V.M. Haag	21
Van den Boogaart, B., <i>see</i> S.A.V.M. Haag	21
Van der Molen, M.W., R.J.M. Somsen, J.R. Jennings, R.T. Nieuwboer and J.F. Orlebeke, A psychophysiological investigation of cognitive-energetic relations in human information processing: a heart rate/additive factors approach	251
Vlek, C., Towards a dynamic structural theory of decision behavior? <i>A comment on 'Image Theory: principles, goals, and plans in decision making' by Beach and Mitchell</i>	225
Wagenaar, W.A. and J.P.A. Boer, Misleading postevent information: testing parameterized models of integration in memory	291
